📁 Portfolio

SKILLS

Programming Languages: Java, Python, SQL, JavaScript

Frontend: React.js, HTML5, CSS3

Backend: Spring Boot, Node.js, Express.js, FastAPI

Database: MySQL, MongoDB

AI / ML: Machine Learning, NLP, Prompt Engineering, LLMs, Generative AI, NumPy, Pandas, Data Cleaning, Image Processing, Model Training, n8n Automation

Core Concepts: Object-Oriented Programming, Operating Systems, REST APIs

PROJECTS

CareerLytics | AI-Powered Career Growth Platform | Java Full Stack, Spring Boot, React.js

- Developed an AI-powered career recommendation platform with personalized skill-gap analysis and intelligent learning recommendations.
- Integrated personalized job recommendations, salary insights, and market demand analytics.
- Built scalable REST APIs using Spring Boot and optimized backend performance, reducing API response time by 40%.
- Developed responsive dashboards using React.js for career progress visualization.

AI Employee Operating System (AI-EOS) | React, TypeScript, FastAPI, MySQL

- Built a full-stack AI-powered HR platform for leave processing, salary dispatch, and employee self-service, with REST APIs in FastAPI and SQLAlchemy.
- Integrated a Groq/OpenAI-powered chatbot using RAG to answer company-specific HR and policy queries, and automated PDF salary slip generation via ReportLab.
- Built a responsive React and TypeScript frontend with MUI, Redux Toolkit, React Query, and Recharts-based analytics dashboards.

Customer Interaction Agent | n8n, Groq LLM API, Workflow Automation

- Built an AI agent using n8n to automatically manage and respond to customer enquiry emails end-to-end.
- Integrated the Groq LLM chatbot API to generate context-aware, condition-based email responses tailored to each enquiry.
- Designed automated workflow logic to classify customer requirements and trigger appropriate responses without manual intervention.

EXPERIENCE

Tap Academy

Jul 2025 – Jan 2026

Agentic Full Stack Developer Intern

Bengaluru

- Developed and deployed CareerLytics using Java, Spring Boot, React.js, and MySQL as part of the internship.
- Designed scalable REST APIs and optimized database schemas, reducing backend API response time by 40%.
- Implemented hybrid recommendation algorithms for jobs and learning resources using NLP techniques.
- Built responsive React.js dashboards for career analytics and recommendation visualization.
- Performed unit testing, integration testing, and cloud deployment.

Hsunahd Consultancy

Mar 2025

AI Automation Intern

Remote

- Worked on AI-powered automation workflows for digital business operations.
- Configured Shopify stores, website hosting, and domain integration.
- Supported product catalog management and business automation processes.

ACHIEVEMENTS

- Awarded **Best Front-End Developer** during internship at Tap Academy.
- Secured **1st Rank** in the 6th Semester of Bachelor of Computer Applications.

EDUCATION

Sindhi College, Bengaluru City University

2022 – 2025

Bachelor of Computer Applications (BCA), CGPA: 8.73/10

Bengaluru

Divine Public School (CBSE)

2020 – 2022

Class XII (PCM) – 66%

Jharkhand

Divine Public School (CBSE)

2019 – 2020

Class X – 74%

Jharkhand
